speaker needs to work on delivery. Every few words was "ah" or "um".

have coffee & tea

maps were too small to be viewed easily  
(SLIDES)

- set up sign-in table outside <sup>of room.</sup> Super distracting, as late comers come in.

- too much time on overview of planning process. could have integrated slides better into the interactive process.

- How well was this meeting advertised?

~~####~~ ~~####~~ seems like a fairly small group for such important work. The next scheduled meeting is to present plan. Should there have been multiple opportunities for interactive feedback

- should be able to read all slides from back row without need to read to audience

- ~~####~~ slide about operation levy was too confusing (renewal)

-
